

Claims

What is claimed is:

1. A golf ball marker and holder comprising:
a clip sized for attachment to a shoe;
a marker having a solid face with an image at least partially
covering a central portion and being removably attached to said clip;
one of said clip and said marker having a ferrous portion; and
an other of said clip and said marker having a magnetic portion.

2. The golf ball marker and holder of claim 1 wherein said clip
defines a circular recessed cavity sized and positioned to receive a portion of said
marker.

3. The golf ball marker and holder of claim 2 wherein said clip
includes a magnetic portion and said marker includes a ferrous portion.

4. The golf ball marker and holder of claim 3 wherein a face of
said clip includes at least one indentation positioned adjacent said circular
recessed cavity.

5. The golf ball marker and holder of claim 4 wherein image
includes an indicator of origin.

6. A golf ball marker and shoe comprising:
a marker having a solid face with an image at least partially
covering a central portion and being removably attached to a clip;
one of said clip and said marker having a ferrous portion;

and
an other of said clip and said marker having a magnetic portion;
(said clip being clipped to a shoe.)

103 7. The golf ball marker and shoe of claim 6 wherein said clip includes a magnetic portion and said marker includes a ferrous portion.

103 8. The golf ball marker and shoe of claim 7 wherein said clip defines a circular recessed cavity sized and positioned to receive a portion of said marker.

103 9. The golf ball marker and shoe of claim 8 wherein a face of said clip includes at least one indentation positioned adjacent said circular recessed cavity.

103 10. The golf ball marker and shoe of claim 9 wherein said image includes an indicator of origin.

103 11. A method of marking a golf ball comprising:
detaching a ball marker having a solid face from a clip that is attached to a shoe;
replacing said ball marker on said clip, at least in part by magnetically attaching said ball marker to said clip.

103 12. The method of claim 11 including a step of lifting said ball marker out of a recessed cavity defined by said clip.
